6 pointed Deep Joint

This our original "6 pointed Deep Joint" gives you long sustain almost same as "Neck-Thru" construction, and quick response when you hit the strings. Then, you'll know that "Neck-Thru" is not always the best.

Seymour Duncan "Custom Shop" pickups

These humbuckers were specially designed and made by Seymour Duncan "Custom Shop" for this new concept bass.

Body shape

Very unique wide, thin body makes this bass possible to have thick bottom sound and nice acoustical ringing together, which the dream of all 5string bass player. Also, off-set body shape gives you extremely nice balance when you play sitting. And, you will notice why it's shaped slightly arch-top when you play slapping and pulling strings.
